[r6surfacewatersummarytable\\_GoldKing\\_08070815.xlsx](#)

Hi Randy,

Can you get us sample site descriptions for the samples in this data table?

We would like to know where they were collected specifically beyond the “northern border of the Navajo Reservation” as described on the web page. Then we can evaluate how much dilution and how many miles we are looking at to Four Corners where the San Juan crossing Ute Mtn. Ute Reservation where we collected our samples Monday.

Thanks,  
Scott
